I'm working as a Freelancer in Front-end development for 2+ years. In these years I've successfully completed so many projects. I've worked on these: Landing page ~ Ecommerce website ~ Blogging site ~ Portfolio ~ Delivery site ~ Email Template ~ Admin dashboard and so on. While working on these projects I've got expertise in HTML, CSS, JavaScript, JQuery, Bootstrap, Sass, Less, and VueJs. Besides that Python, Django, MySQL, Mongo DB, and CMS are my second choice for modern technology.

EDUCATION

Daffodil International University

(January 01, 2019 - December 31, 2022)

Bachelor of Science, Electrical and Electronic Engineering

[🔗 https://daffodilvarsity.edu.bd/](https://daffodilvarsity.edu.bd/)

ACHIEVEMENTS

Freelancer.com

(August 04, 2020 - Present)

Front-End Developer

I've learned all the technologies by myself with the help of YouTube. I've tried so hard to reach my destination. I've faced so many problems during my learning period. Still, now I'm trying. I've completed projects in my freelancer account and outside of the freelancer site. It's one kind of my achievement.
